CURRENT STATUS AND STATISTICS OF JAPANESE SPACE INDUSTRY

Abstract

Japan's space policy was dynamically changed in May 2008, because Space Basic Law was passed in diet. Also Space Basic Plan was announced in 2009. Since 1952 SJAC, Society of Japanese Aerospace Companies is surveying statistics of Japanese aerospace industry. This paper will present current status of Japanese Space Industry after Space Basic Law and will also explain following space statistics like definition of Japanese Space Industry, purpose and method of Japanese Space Statistics, sales by space industry, ratio of domestic demand to export, sales of breakdown of domestic demand by client, export and import by space industry, R and D expenses by space industry segment, capital investment by Space industry, number of employee, etc.
