

SPACE EDUCATION AND OUTREACH SYMPOSIUM (E1)

Ignition - Primary Space Education (1)

Author: Mr. Leland Melvin

National Aeronautics and Space Administration (NASA), United States, leland.d.melvin@nasa.gov

SYMPOSIUM KEYNOTE: INSPIRING THE NEXT GENERATION

Abstract

NASA astronaut and the head of NASA's education programs, Leland Melvin, will offer a unique perspective on the inspirational power of space to inspire students and educators. After sharing highlights from his two spaceflights he will then focus on his philosophy for how organizations such as NASA, ESA, JAXA, CSA and others can support educators around the world to inspire students toward STEM careers.
