LAUNCH OPPORTUNITIES AND PACKAGE SOLUTION

Abstract

JSC "Glavkosmos" is a Roskosmos State Corporation's subsidiary. The key objectives of the company are the promotion of Russian space industry achievements in foreign markets and coordinating international space activities in Russia. Glavkosmos presentation is aimed to tell the Conference participants about new launch opportunities (interesting schemes of payloads arrangement in the Soyuz family LVs) as well as space system solutions developed together with the leading space scientific centers of Russia.
