SOYUZ-V: INTRODUCTION OF THE NEW LAUNCHER IN DEVELOPMENT.

**Abstract**

GK Launch Services will present the new Soyuz-V LV. It will provide the GTO/GEO capability and in the future will serve as the base of a super heavy-lift launch vehicle. It will launch from the Baikonur Cosmodrome. During the presentation we will focus on its commercial capabilities for LEO and GTO/GEO. Currently, it is in the design phase and the plan is to begin its test flights in 2022.
