NOTION ROBOTICS LOOKS FOR COLLOBORATION FOR CONTRIBUTION ON MOON VILLAGE  
THROUGH VARIOUS OUREACH PROGRAMMES AND ALSO BUILDING IN NEW INNOVATION  
CONCEPTS USING SPACE ROBOTICS.

**Abstract**

The exploration of the Moon with human and robotic missions and its colonization, through the establishment of permanent bases, such as tourism, human mobile exploration and human outpost, scientific mission, moon village etc. will require planetary communications and navigation infrastructures. This architecture is a critical part of the overall Lunar Mission scenario.
